MESSAGE FROM MR. GOVERNOR

The Lagos State Government enacted the Lagos State Public Procurement Law in 2011 with a view to enhancing efficiency, accountability, transparency and due process in public procurement in line with international best practice. The Law was, however, amended in 2015.

The Law of the Agency is currently being reviewed as part of the efforts of the present Administration in the State to reposition the Agency for improved delivery of service and also further empowering operators of Small and Medium Scale Enterprises to transact business with the State Government. Towards this end, a new Procurement Law that will reflect the dynamics of the operating environment will soon be signed. When the new Law comes into effect, it is envisaged that it will make public procurement more inclusive and also enhance compliance with due process in public procurement by stakeholders.

Our Administration is quite aware of the tremendous role technology could play to assist the Agency as a major driver in the Administration's desire to enhance the ease of doing business in the State. And it was for this reason that I granted approval for the Agency to integrate 97 additional MDAs on the e-procurement platform in 2021. We are indeed in a hurry to bring more development and growth to our dear State. So, we shall leave no stone unturned to support the Agency in its bid to continuously enhance the public procurement process as a vehicle for growth and development of the State.

While acknowledging the fact that the publication of the Annual Report is a statutory function of the Agency, I wish to express satisfaction that the Agency, through the publication of the Report, has been able to put the records of some of the projects executed by the State Government in public domain. This is a welcome development since it provides an avenue for Government to be accountable to the good people of Lagos State for the resources entrusted to us as their elected representatives.

I, therefore, commend the members of the Governing Board and management of the Agency for the production of the Year 2020 edition of the Annual Report, thereby creating an important avenue for the general public to objectively assess the performance of our Administration in the delivery of services vis-à-vis the resources available.

Igbega Ipinle Eko, Ajumose Ni!

Babajide Olusola Sanwo-Olu
Governor, Lagos State.

FOREWORD

I am happy to note that the Annual Report published by the Lagos State Public Procurement Agency as provided for in the enabling Law setting up the Agency has proved to be a veritable medium through which the programmes and projects executed by the State Government are presented to stakeholders and the general public.

Thus, the Annual Report provides an avenue for accountability and transparency as the names of contractors, suppliers and service providers employed for executing the programmes and projects by the State Government as well as the costs of the contract awards are published for the consumption of members of the public.

In Year 2020, the Agency went a notch higher in its drive to ensure due process in public procurement and enhance the ease of doing business with the State Government. Towards this end, the Agency intensified efforts on capacity development of relevant personnel saddled with the responsibility of managing the e-procurement system being deployed by the Agency to MDAs in the State. It also increased the tempo of its engagements with relevant MDAs to make the public procurement system operate in a seamless manner.

Members of the Governing Board and the management team of the Agency will, therefore, continue to work in synergy so as to enable the Agency continue to play a leading role in facilitating transparency, accountability and good governance which are some of the key objectives of the Babajide Olusola Sanwo-Olu Administration in Lagos State.

I must commend Mr. Governor for his unwavering support which has enabled the Agency to remain focused in discharging its statutory functions. On behalf of the members of the Governing Board, management and the entire staff of the Agency, therefore, I wish to assure Mr. Governor that we shall continue to evolve policies and strategies aimed at ensuring the delivery of goods and services to the good people of the State through a transparent, accountable, competitive and cost-effective public procurement system that guarantees value for money.

I also thank members of the Governing Board, the management team and the entire staff of the Agency for their contributions and commitment towards ensuring the laudable achievements the Agency has made so far.

On a final note, I wish to state that the Annual Report contains information on the programmes and projects carried out by the State Government through its MDAs in Year 2020. The information could be found useful by members of the business community, researchers, analysts, institutions, community leaders and the general public.

Igbega Ipinle Eko, Ajumose Ni

Dr. Rabiu Onaolapo Olowo

Chairman, Governing Board,

Lagos State Public Procurement Agency (PPA)

& Honourable Commissioner for Finance, Lagos State
